## About us

With more than 30 years of experience, Hi-Tech Services specializes in Refurbish and repair of all types of industrial valves both pneumatic and manual operated. Hi-tech Services has experience repairing any type of valves be it Indian or foreign make.

“Quality work and timely delivery” is Hi-Tech Services’ core belief. This belief has helped Hi-Tech Services to build strong relations with customers. We also specialize in Big size valve repairs. Our team of skilled and experienced engineers and technicians deliver excellent quality repair within the customer requested time frame. We are proudly working as the trusted valve repair company in the top industries in the Bharuch, Jhagadia, Ankleshwar, Panoli and Dahej area on Annual Rate contracts. We also undertake shutdown repair jobs all over India.

## Capabilities

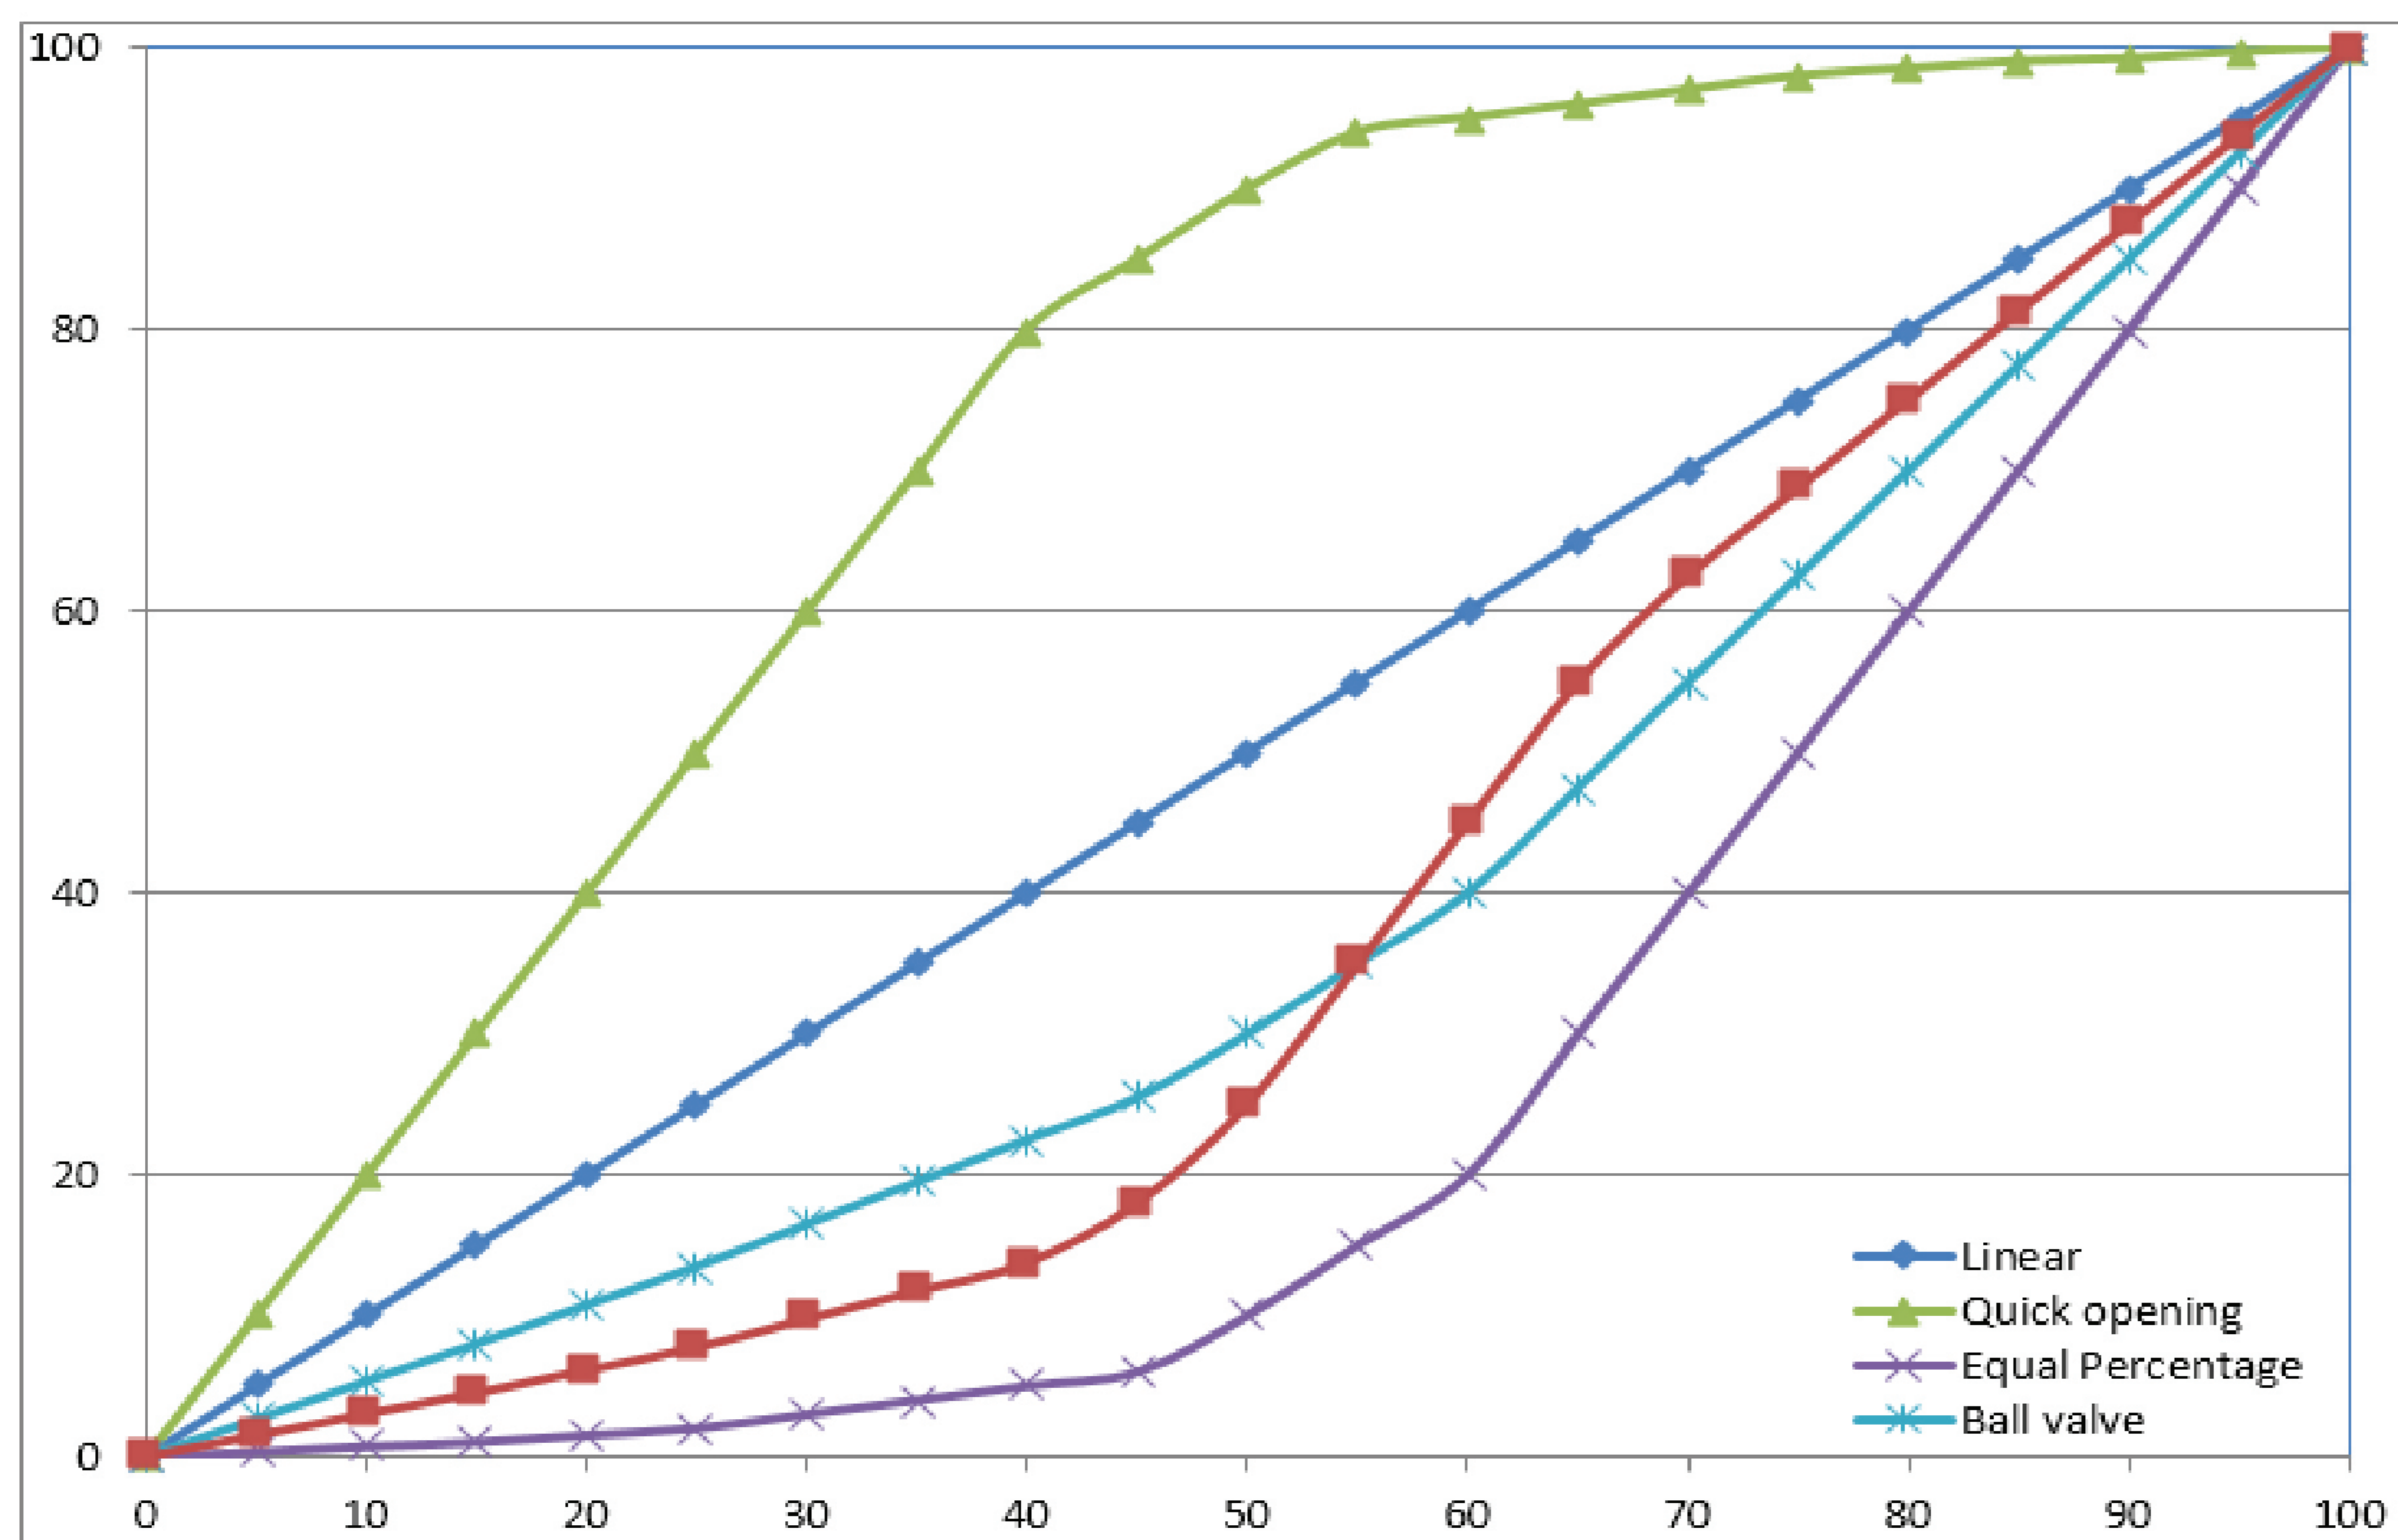

Spread in about 18,000 Sq Feet area, we have state-of-the-art workshops. Our capabilities range from **Repairing size 0.5” to 48” valves with rating up to 2500#**. We have 9 lathes inhouse, 3Ton EOT and 5Ton chain pulleys, 1 milling machine, 3 drill machines, 3 bench grinders, 3 welding machines for Arc and Argon welding, FCI 70-2 standard Valve testing bench, 3 safety valves test bench and ISO certificate. We have experience repairing almost all **types of control valves such as Globe valve, Gate valve, Butterfly valve, Piston valve, Ball valve, Eccentric Rotary plug valve, Orbit valve, Teflon sleeve plug valve, Chlorine services valve, Caustic services valve, Check valves, PRV, Self-acting PCV, Safety valve, Pilot operated safety valve, Breather valve, etc.** We also have experience repairing all types of Actuators like Spring and Diaphragm actuator, On/Off actuator, Pneumatic Piston actuator, Rotary actuator, Rack and Pinion type actuator, Etc. We also install and calibrate accessories on the valves such as positioners, solenoid valves, limit switches, regulators, boosters, I/P convertors, etc.

## Our special services

### SHUT-DOWN JOBS :

Our highly skilled technicians and engineers work 24 hours to complete shutdown jobs on time. We have capabilities to work in our workshop and/or provide mobile machinery to work on-site at the customer plant anywhere in India location.

We specialize in Big size Ball valve repairs and achieving class VI shutoff for metal to metal seated valves. We are capable of repairing up to 48" ball valve along with machining and chrome plating of Ball.

### Cv MODIFICATION :

We possess Cv testing capabilities for valves. We also have ability to design new trim to change the Characteristics of valve as per customer requirements.

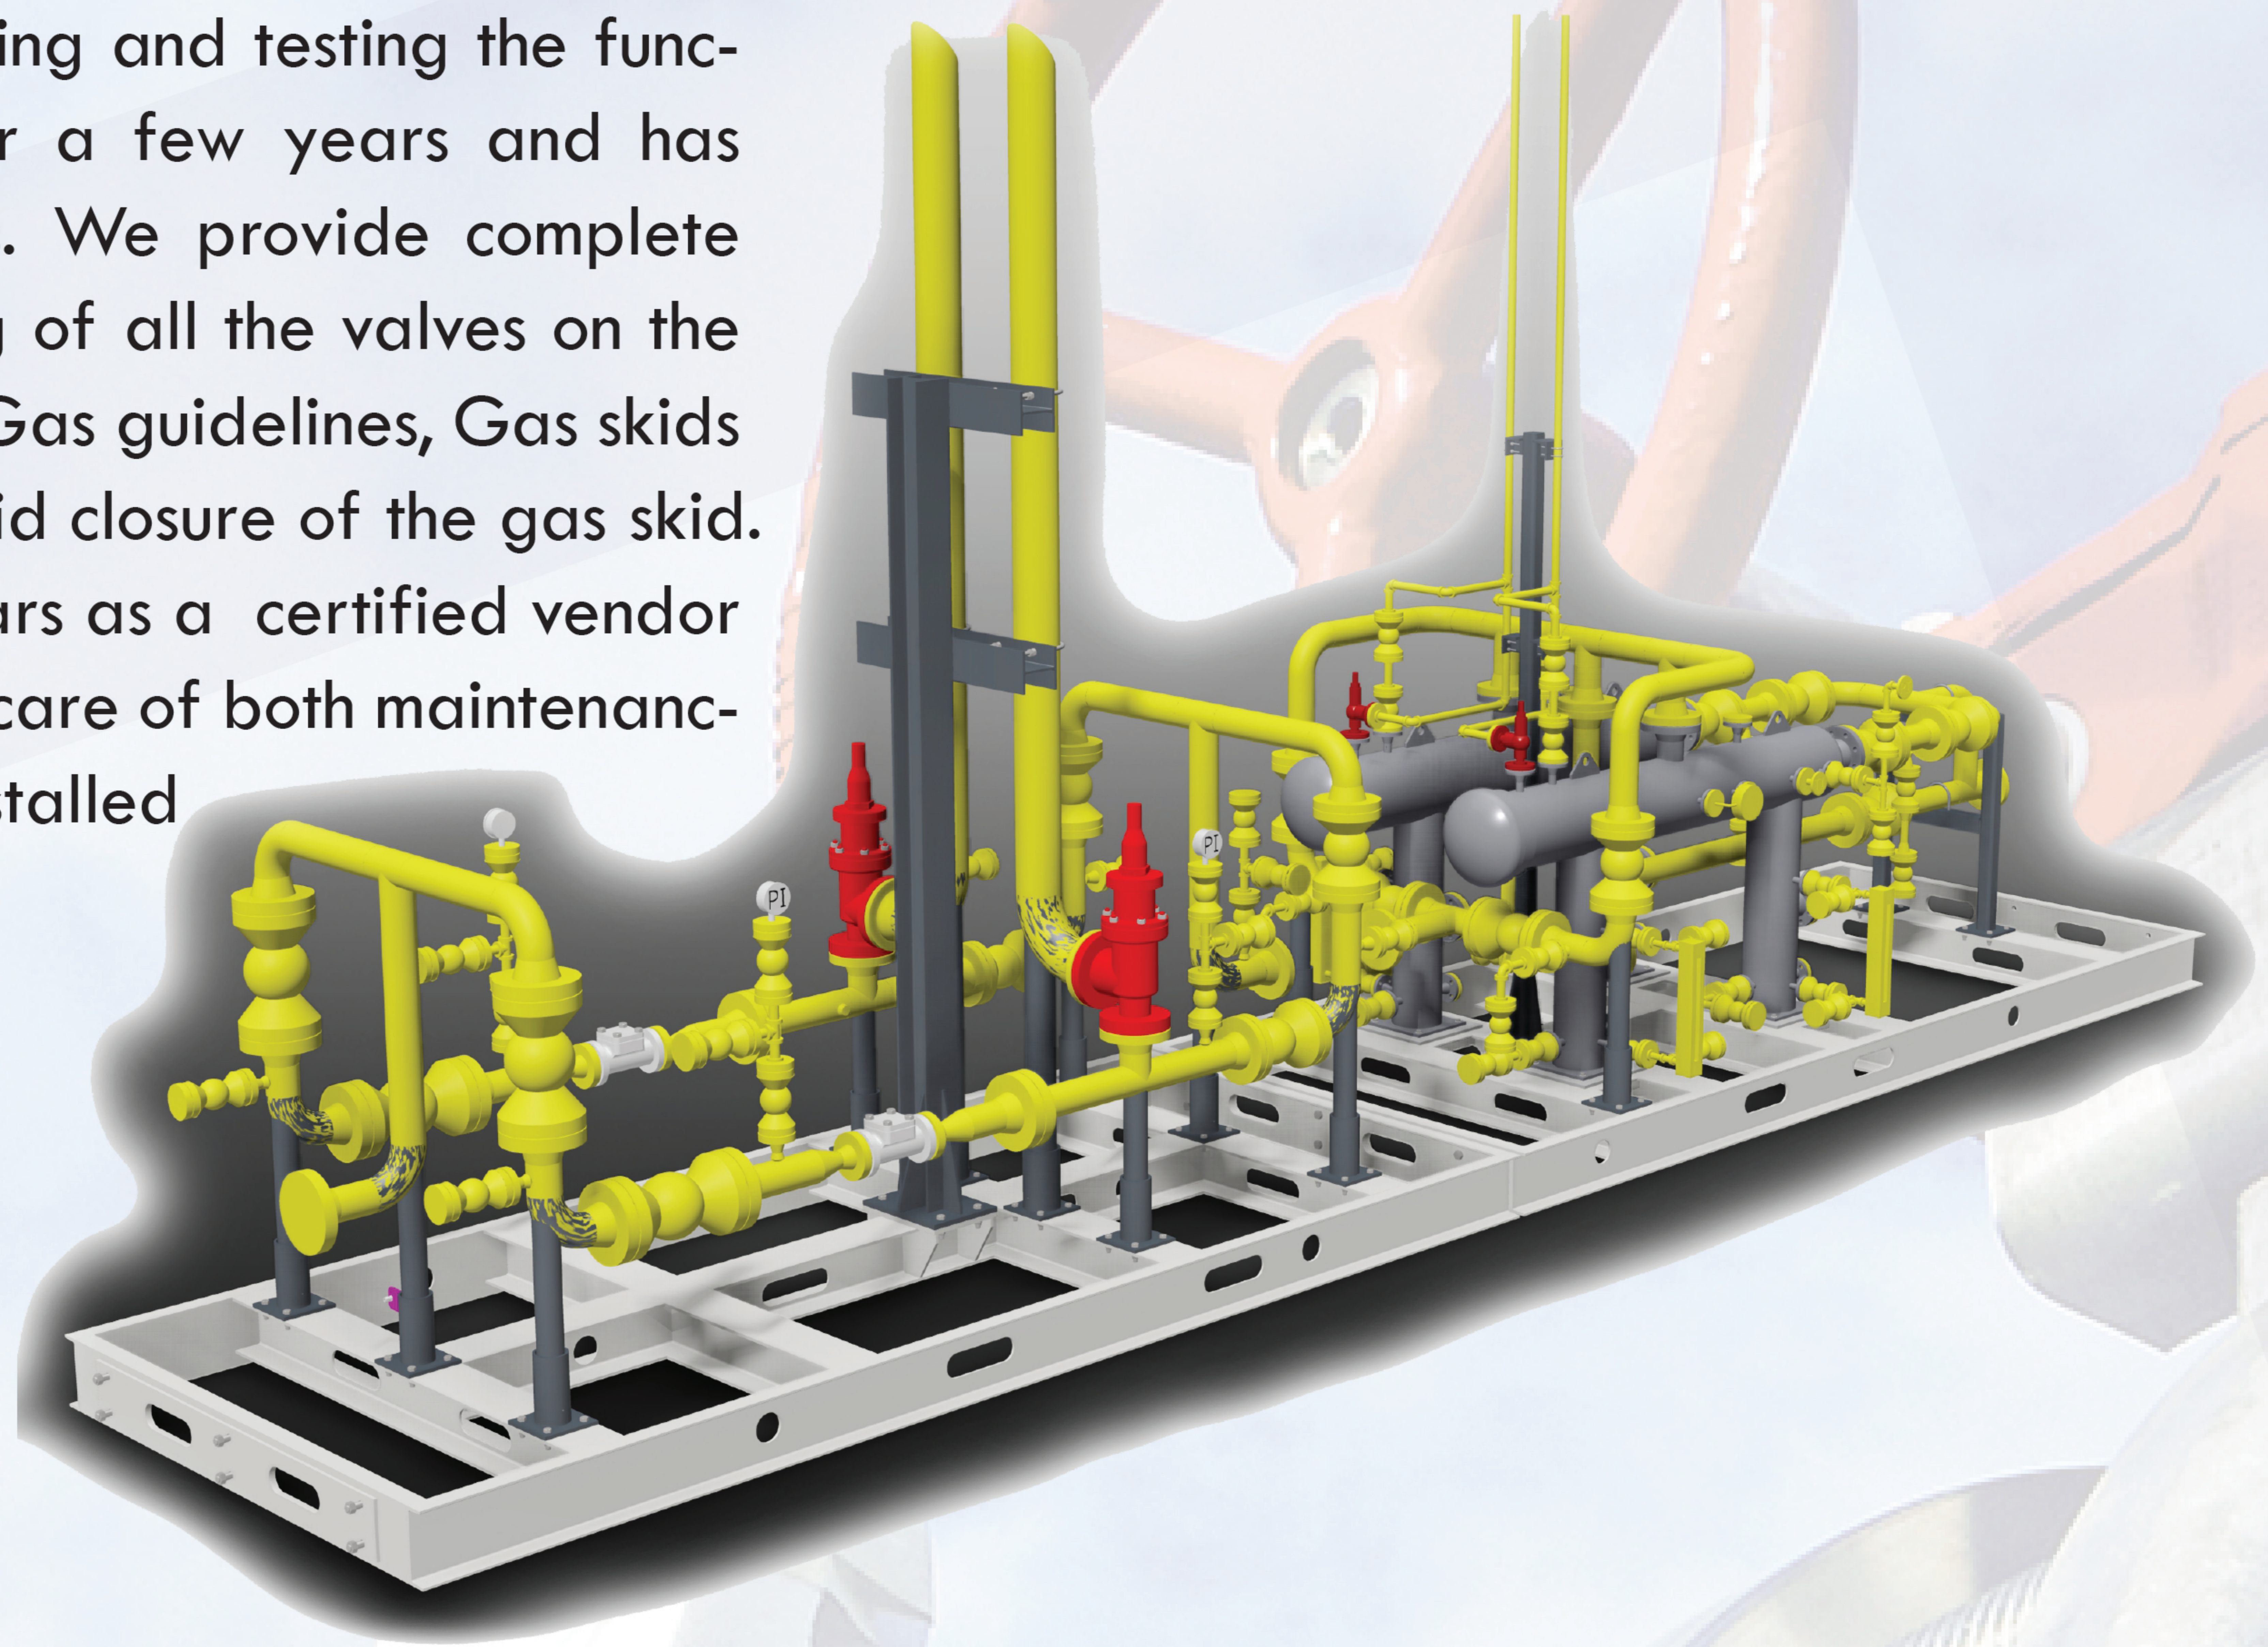

### VALVE SPARE PARTS SUPPLY:

Hi-Tech Services can supply any spare parts for control valves that will be manufacture as per your drawings or sample with materials like SS-316/304, SS-316/L, SS-410/416/430, 440-C, SS-321, 318. Monel, Hastelloy, Nickle, Titanium, Tantalum, Zirconium, Inconel, 17-4 PH, Nitronic-50/60, Aluminum, Brass etc. we also supply soft components of valves such as soft seats, diaphragm and sleeves, gaskets, packing, bellows for the bonnet, O-rings, etc.

### Gas Skid maintenance:

Hi-Tech has expanded its horizons to repairing and testing the functionality of Gas skids all over Gujarat for a few years and has received positive feedback from customers. We provide complete LDT with certification along with overhauling of all the valves on the gas skid with testing report. As per Gujarat Gas guidelines, Gas skids are required to be certified annually to avoid closure of the gas skid. We have worked with Gujarat gas for 5 years as a certified vendor of gas skid maintenance; hence we can take care of both maintenances as well as certification of the gas skids installed at your site.

### Our Top Clients :

### Quality Statement

*To ensure best quality service & repair, we have a QAP in place to check each and every valve repaired. This ensures delivery of only quality products to your doorstep. We also submit digital repair reports with testing details for your assurance of the work executed by us. We take full guarantee of our workmanship and hence we provide full support after-sales.*
